

BERGAMO 25 OCTOBER

FOCUS ON ADVANCED MANUFACTURING SYSTEMS & HEALTHCARE TECHNOLOGIES

9:00-9:45

OPENING PLENARY SESSION

WELCOME ADDRESS BY:

- University of Bergamo
- **Chinese Representative**

INSTITUTIONAL SPEECHES

- **Italian Ministry for Economic Development-MISE**
- **Chinese Representative**
- Lombardy Regional Government
- **Chinese Representative**
- Bergamo Municipality

9:45-10:30

PLENARY SESSION

Fostering the Technology Transfer between China and Italy: a Joint Vision

- Italian Technological Cluster Intelligent Factory: *Promoting excellence in manufacturing: The experience of CFI-Cluster Fabbrica Intelligente*
- **Chinese Speaker**
- Technology Transfer, Innovation and Valorization of Research of University of Bergamo: *The Italy- China Technology Transfer Centre (CITTC): mission, activities and road*
- **Chinese Speaker**: *MadeinChina2025 program: strategic vision and key actions*

10:30-10:50 - Coffee break

10:50-12:30

PARALLEL THEMATIC SEMINARS (topics to be decided among the following ones)

Each session will be organized with: two speeches by a representative from Italian research center/industrial association/technology cluster on the main national project (15 minutes each); two speeches from Chinese representatives from research centers and industry (15 minutes each); a networking session with peer-to-peer interaction between participants (with the support also of a poster exhibition site for each session) (40 minutes).

Seminar 1: Adaptive & Flexible Manufacturing Systems for Mechatronics Solutions

Seminar 2: Smart Manufacturing in the Automotive Industry

Seminar 3: Household & Domotics

Seminar 4: Healthcare Technologies

12:30 - 14:00 - **Transfer to & lunch @Kilometro Rosso**

Press conference

Afternoon Session - Venues: **Kilometro Rosso and POINT**

The afternoon session will be devoted to the visit to the Scientific Parks of Kilometro Rosso and POINT.

Kilometro Rosso Science Park is a managed environment that plays host to a wealth of companies, research centres, laboratories, high-tech manufacturing facilities and , innovation services. The Park is a multi-disciplinary campus that leverages the diversity of its occupants in order to promote dialogue between the worlds of academia, e science. Mission of the park is to promote the development of a hub of knowledge, innovation and high technology by creating a rendezvous point for innovation-driven for scientific and R&D centres focusing on advanced technologies.

14:00 - 16:15

PRESENTATION AND VISIT TO:

I. Lab Italcementi, Mario Negri Institute, Brembo R&D Center

14:00 - 14:30 - Transfer to POINT - Dalmine

POINT is a multisector Science Park managed by Bergamo Sviluppo - the agency of the local Chamber of Commerce. It was created to foster the economic and cultural the territory of Bergamo embracing companies and research projects related to various topics of innovation, willing to create a link between the industrial fabric and the systems thus enforcing the technology transfer. POINT hosts also a manufacturing and a service incubator.

14:30 - 15:45

PRESENTATION AND VISIT TO:

POINT incubator

15:45 - 16:15 - Transfer to Kilometro Rosso Scientific Park

16:15 - 16:30

OFFICIAL INAUGURATION OF THE BERGAMO'S HUB OF CITTC (CHINA-ITALY TECHNOLOGY TRANSFER CENTRE) @ KILOMETRO ROSSO

16:30 TRANSFER FROM BERGAMO TO BOLOGNA (BY BUS)

18.15-22.15 TRANSFER FROM BERGAMO TO NAPLES (BY TRAIN)

Venue

Sant'Agostino Conference Center-University of Bergamo
